

GIVING YOU ONE STEP AHEAD

Our technical know-how and spirit of innovation
at the service of your performance

LOCATED SINCE 1995 IN THE ESTER TECHNOPARK IN LIMOGES, OUR COMPANY IS SPECIALIZED IN MANUFACTURING AND REFURBISHING CERAMIC ROLLERS AND SLEEVES.

THANKS TO OUR INNOVATIVE LASER TECHNOLOGY, WE ENSURE ENGRAVING ACCURACY ALL ALONG THE CYLINDER FOR HIGH QUALITY PRODUCTS.

CYLINDERS

Our cylinders, resistant to scratches and corrosion for an extending period of use. They deliver the exact amount of desired coating thanks to our custom-made laser engraving and the design of our screens.

SLEEVES

Our sleeves are all equipped with an extended inox ring for better protection and longevity. More resistant than aluminum, this feature helps limiting damage on the ceramic edges.

INOX RING

SPECIAL APPLICATIONS

We offer marking and surface treatment that perfectly fit special applications.

WE MEET ALL YOUR NEEDS
